VOLUNTARY ANNOUNCEMENT

This announcement is made by WuXi AppTec Co., Ltd.* (無錫藥明康德新藥開發股份有限公司) (the “**Company**” or “**WuXi AppTec**”) on a voluntary basis.

Reference is made to the announcements of the Company dated January 26, 2024, January 29, 2024, February 4, 2024, February 13, 2024, March 7, 2024 and May 16, 2024, in relation to, among other things, WuXi AppTec being named in certain proposed legislation that was introduced in the U.S. House of Representatives (the “**House**”) and the U.S. Senate (the “**Senate**”).

The Company has learned that on September 9, 2024 (U.S. time) the House voted to pass the draft bill H.R.8333 for the proposed BIOSECURE Act. The draft bill passed by the House is based on the version passed by the House Committee on Oversight and Accountability on May 15, 2024 (U.S. time) and includes a designation of WuXi AppTec as a “biotechnology company of concern”, which is a preemptive and unjustified designation without due process that the Company strongly object to. Such draft bill would restrict U.S. government agencies from using funding, loan or grant for the contracts that would use certain biotechnology equipment or services from a designated company in carrying out such government-funded contracts. In spite of such restriction, the draft bill also includes a “grandfather” clause that allows a designated company to continue carrying out the U.S. government-funded contracts for its customers until 2032.

We firmly believe that WuXi AppTec has not posed, does not pose, and will not pose a security risk to the United States or any other country and it has not been subject to any sanction by the U.S. government agencies. We also reiterate that WuXi AppTec does not have a human genomics business or collect human genomic data in the U.S., China or elsewhere.

The proposed BIOSECURE Act will continue to go through the legislative process in the coming months. For the proposed legislation to become law, the Senate must also approve it and reconcile any difference with the version passed by the House before the expiration of the term of this 118th U.S. Congress. The Senate has not scheduled the proposed BIOSECURE Act for consideration and the legislative route forward is unclear at this stage. The Company will work closely with its advisors to continue our engagement and dialogue with the relevant stakeholders involved in the legislative process.

Founded with the purposes of serving our customers' needs and helping patients, WuXi AppTec has become a trusted and longstanding partner in the global healthcare community, where for more than twenty years the Company has helped thousands of global customers with discovery, development, and manufacturing efforts to deliver innovative and life-saving medicines that meet the highest regulatory and quality standards in the pharmaceutical and life science industry. We look forward to continuing our mission to serve customers and help patients around the world.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the securities of the Company.

By order of the Board
WuXi AppTec Co., Ltd.*
Dr. Ge Li
Chairman

Hong Kong, September 10, 2024
