Forward-Looking Statements
This presentation may contain certain “forward-looking statements" which are not historical facts, but instead are predictions about future events based on our beliefs as well as assumptions made by and information currently available to our management. Although we believe that our predictions are reasonable, future events are inherently uncertain and our forward-looking statements may turn out to be incorrect. Our forward-looking statements are subject to risks relating to, among other things, the ability of our service offerings to compete effectively, our ability to meet timelines for the expansion of our service offerings, our ability to protect our clients’ intellectual property, unforeseeable international tension, competition, the impact of emergencies and other force majeure. Our forward-looking statements in this presentation speak only as of the date on which they are made, and we assume no obligation to update any forward-looking statements except as required by applicable law or listing rules. Accordingly, you are strongly cautioned that reliance on any forward-looking statements involves known and unknown risks and uncertainties. All forward-looking statements contained herein are qualified by reference to the cautionary statements set forth in this section. All information provided in this presentation is as of the date of this presentation and are based on assumptions that we believe to be reasonable as of this date, and we do not undertake any obligation to update any forward-looking statement, except as required under applicable law.

Non-IFRS Financial Measures
We provide non-IFRS gross profit and non-IFRS net profit attributable to the owners of the Company, which exclude share-based compensation expenses, issuance expenses of convertible bonds, fair value gain or loss from derivative component of convertible bonds, foreign exchange-related gains or losses and amortization of intangible assets acquired in business combinations, non-financial assets impairment, etc. We also provide adjusted non-IFRS net profit attributable to the owners of the Company and earnings per share, which further exclude realized and unrealized gains or losses from our venture capital investments and joint ventures. Neither of above is required by, or presented in accordance with IFRS.

We believe that the adjusted financial measures used in this presentation are useful for understanding and assessing our core business performance and operating trends, and we believe that management and investors may benefit from referring to these adjusted financial measures in assessing our financial performance by eliminating the impact of certain unusual, non-recurring, non-cash and non-operating items that we do not consider indicative of the performance of our core business. Such non-IFRS financial measures, the management of the Company believes, is widely accepted and adopted in the industry the Company is operating in. However, the presentation of these adjusted non-IFRS financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS. You should not view adjusted results on a stand-alone basis or as a substitute for results under IFRS, or as being comparable to results reported or forecasted by other companies.

Drug Discovery (R) Generating Downstream Opportunities

- In the past 12 months, successfully synthesized and delivered 430,000+ new compounds (grew 3% YoY)
- R to D&M conversion continued to improve efficiency, and molecules converted from R to D&M continued to grow

Continued Growth of Development and Manufacturing (D&M)

- Q1 D&M revenue reached 4.00bn, excluding COVID-19 commercial projects, grew 1.2% YoY
- CDMO pipeline currently in total of 3,286 molecules (with 337 newly added in Q1); 11 commercial & Phase III projects added in Q1

Continued Expansion of New Modalities (TIDES)

- Q1 TIDES revenue grew strongly by 43.1% YoY to 0.78bn. By end of Q1, TIDES backlog grew significantly by 110% YoY
- TIDES D&M customers grew 30% YoY to 146, and molecules grew 43% YoY to 276
- In January 2024, total reactor volume of Solid Phase Peptide Synthesizer increased to 32,000L

* GPM @ CER: Q1 2023 44.5%, Q1 2024 40.6%

Note: 1. To further strengthen the CRDMO business integration, business units have been adjusted accordingly, and so have the R and D&M revenue splits (similar to 2023 baseline).

WuXi ATU: Commercial Projects Gradually Approved, Driving Future Growth

**Pipeline & Progress of Commercial Projects**

- Total pipeline of **65** projects by end of Q1, among which, the **world's first innovative TIL-based therapy** was approved by FDA in Q1.

- Preparing for BLA filing to manufacture the LVV used in a commercial CAR-T product. **Completed process performance qualification (PPQ) and started post-PPQ manufacturing, expect to file pre-approval submission (PAS) to FDA in H2 2024.**

- **Expect to complete PPQ and file PAS to FDA in H2 2024** for a blockbuster commercial CAR-T product.

- Q1 revenue and GPM down YoY, mainly due to: high-margin projects were completed in 2023; the new TIL product was approved in late February 2024, while manufacturing and quality staffs have been hired and came onboard in advance to prepare for commercial manufacturing, and thus costs increased accordingly; and under-utilization of capacity for other projects.

**WuXi DDSU**: Supporting Customers to Continue Advancing Pipeline Projects

### NDA Approval
- By end of Q1, **3 new drugs** developed for our customers **obtained NMPA approvals**, including 2 for COVID-19 infection treatment and 1 for tumor treatment. Continued to **receive royalty income from customers for the approved new drugs**. Moreover, 2 new drug candidates are in NDA review stage.

### Project Pipeline
- In Q1, supported customers to file INDs for **6 drug candidates** and **obtained 6 Clinical Trial Approvals (CTAs)**.
- Cumulatively submitted **196 IND filings** and obtained **175 CTAs**, including **3 projects** with NDA approvals, **2 projects** in NDA review stage, **4 in Phase III**, **35 in Phase II**, and **71 in Phase I**.
- **17 new modality projects** covering peptide/PDC, PROTAC®2 and oligo. Multiple projects have completed pre-clinical development and filed INDs, among which **6 projects** have entered clinical stage.
- Demand declined significantly, and thus fewer new projects were signed as expected.

**Q1 2024 Free Cash Flow Remained Positive and Reached RMB 1.33Bn**

Note: Capital expenditure includes purchase of property, plant and equipment, other intangible assets and other long-term expenses.
4. Business Outlook
Despite uncertainties in the external environment, revenue expects to reach RMB 38.3-40.5 billion in 2024, and maintain positive growth of 2.7-8.6% excluding COVID-19 commercial projects.

Continue to improve operating efficiency. Adjusted non-IFRS NPM in 2024 expects to remain at a similar level as last year, taking into consideration of new capacity ramp-up and FX impact.

With improved asset utilization and operating efficiency, free cash flow expects to remain positive and reach RMB 4.5 billion in 2024, which will continuously cover the cash dividends and investments in talents, while global capacity is expected to be expanded as planned (with capex of RMB ~5 billion).
